EPA has reviewed your request for extension of the Phase II treatability report for the subject IM/IRA (93-DOE-05202). In keeping with our conversations on the subject, we hereby grant your request and extend the deadlines for submittal of the draft and final reports to July 13 and September 8, 1993, respectively, as requested. Our understanding of the Site demonstration scope indicates the extension granted here should be more than sufficient to compensate for the extra effort required. Any further extensions on these or other deadlines will require documentation of good cause as defined in the IAG.

We will continue to work with Mr. Scott Grace of your staff to expeditiously conclude the SITE demonstration so preparation of the OU 2 IM/IRA Phase II reports can proceed. If you have questions or would like to discuss the progress of this effort, please contact Bill Fraser (EPA) at 294-1081 or Joe Schieffelin (CDH) at 692-3356.
